

Kemet 15 Geological lapping Machine

The Kemet 15 Geological lapping machine is able to accurately lap thin sections mounted on glass slides down to 30 microns. Silicon carbide can easily be applied to the cast iron serrated lapping plate for lapping. Polishing of thin sections can be achieved using a polishing pad.

Features

- Cast iron Serrated Lapping Plate
- Variable Speed up to 70 rpm
- 3 vacuum jigs with diamond faced stoppers
- Water Trap and Filter
- Vacuum pump
- Integrally mounted high torque drive unit with 0.37kW (0.5HP) motor
- Sealed maintenance free reduction gearbox
- Three adjustable conditioning ring roller bearing yoke assemblies
- Abrasive Slurry Distribution System using rotating drum
- Electronic digital timer with variable time ranges
- Electrical: 230V-single phase-50Hz
